

Overchurch Junior School Science Subject Content and Long Term Plan 2019-20

SCIENCE			
Year	Autumn	Spring	Summer
3	<p><b>Rocks</b></p> <p>Compare and group together different kinds of rocks on the basis of their appearance and simple physical properties.</p> <p>Describe in simple terms how fossils are formed when things that have lived are trapped within rock.</p> <p>Recognise that soils are made from rocks and organic matter.</p> <p><b>Tig Tag – Minerals, rocks, soils</b></p> <p><b>Light</b></p> <p>Recognise that they need light in order to see things and that dark is the absence of light.</p> <p>Notice that light is reflected from surfaces.</p> <p>Recognise that light from the sun can be dangerous and that there are ways to protect their eyes.</p> <p>Recognise that shadows are formed when the light from a light source is blocked by a solid object.</p> <p>Find patterns in the way that the size of shadows changes.</p> <p><b>Tig Tag – What is light? Light sources, shadows</b></p>	<p><b>Forces and magnets</b></p> <p>Compare how things move on different surfaces.</p> <p>Notice that some forces need contact between two objects, but magnetic forces can act at a distance.</p> <p>Observe how magnets attract or repel each other and attract some materials and not others.</p> <p>Compare and group together a variety of everyday materials on the basis of whether they are attracted to a magnet, and identify some magnetic materials.</p> <p>Describe magnets as having two poles.</p> <p>Predict whether two magnets will attract or repel each other, depending on which poles are facing.</p> <p><b>Tig Tag – What is a force? Magnetism, Using magnetism</b></p>	<p><b>Plants</b></p> <p>Identify and describe the functions of different parts of flowering plants: roots, stem/trunk, leaves and flowers.</p> <p>Explore the requirements of plants for life and growth (air, light, water, nutrients from soil, and room to grow) and how they vary from plant to plant.</p> <p>Investigate the way in which water is transported within plants.</p> <p>Explore the part that flowers play in the life cycle of flowering plants, including pollination, seed formation and seed dispersal.</p> <p><b>Tig Tag – Parts of a plant, Reproduction in flowering plants, Plant uses.</b></p> <p><b>Living things and their habitats</b></p> <p>Recognise that living things can be grouped in a variety of ways.</p> <p>Explore and use classification keys to help group, identify and name a variety of living things in their local and wider environment.</p> <p>Recognise that environments can change and that this can sometimes pose dangers to living things.</p> <p><b>Tig Tag – Habitats, Invertebrates, Vertebrates, Environment</b></p>

Year	Autumn	Spring	Summer
4	<p><b>Electricity</b> Identify common appliances that run on electricity.</p> <p>Construct a simple series electrical circuit, identifying and naming its basic parts, including cells, wires, bulbs, switches and buzzers.</p> <p>Identify whether or not a lamp will light in a simple series circuit, based on whether or not the lamp is part of a complete loop with a battery.</p> <p>Recognise that a switch opens and closes a circuit and associate this with whether or not a lamp lights in a simple series circuit.</p> <p>Recognise some common conductors and insulators, and associate metals with being good conductors.</p> <p><b>Tig Tag – Electricity, Conductors, Dangers, Electrical circuits</b></p> <p><b>Animals including humans</b> Identify the different types of teeth in humans and their simple functions</p> <p><b>Tig Tag – Teeth,</b></p>	<p><b>Animals including humans</b> Construct and interpret a variety of food chains, identifying producers, predators and prey.</p> <p>Identify that humans and some animals have skeletons and muscles for support, protection and movement.</p> <p>Identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat.</p> <p>Describe the simple functions of the basic parts of the digestive system in humans.</p> <p><b>TIGTAG - Digestive system, Excretion, Human skeleton, Joints and muscles, Food and food chains.</b></p>	<p><b>Sound</b> Identify how sounds are made, associating some of them with something vibrating. Recognise that vibrations from sounds travel through a medium to the ear.</p> <p>Find patterns between the pitch of a sound and features of the object that produced it. Find patterns between the volume of a sound and the strength of the vibrations that produced it. Recognise that sounds get fainter as the distance from the sound increases.</p> <p><b>Tig Tag – What is sound? How does sound travel? How do we hear? Pitch, Volume, Dangers of sound</b></p> <p><b>States of matter</b> Compare solids, liquids or gases.</p> <p>Observe that some materials change state when they are heated or cooled. The water cycle.</p> <p><b>Tig Tag – Changes of state, Air, Water, Water and weather</b></p>
5	<p><b>All living things and their habitats</b> Describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird.</p> <p>Describe the life processes of reproduction in some plants and animals.</p> <p><b>Tig Tag – Living things and their environment, Plant growth, Reproduction in flowering plants, Fertilisation and dispersal.</b></p> <p><b>Animals including humans</b> Describe the changes as humans develop to old age. Puberty</p> <p><b>Tig Tag – Life cycles, Reproduction, Cells</b></p> <p><b>BBC DVD – Sex education</b></p>	<p><b>Properties and changes of materials</b> Compare and group together everyday material on the basis of their properties.</p> <p>Know that some materials will dissolve in liquid to form a solution, and describe how to recover a substance from a solution.</p> <p>Use knowledge of solids, liquids and gases to decide how mixtures might be separated.</p> <p>Give reasons for the particular uses of everyday materials, including metals, wood and plastic.</p> <p>Demonstrate that dissolving, mixing and change of state are reversible changes.</p> <p>Explain that some changes result in the formation of new materials, and that this kind of change is not usually reversible, including changes associated with burning and the action of acid on bicarbonate of soda.</p> <p><b>Tig Tag – Properties of materials, What is a mixture? Separation – sieving, Evaporation, Filtration, Changing materials.</b></p>	<p><b>Earth and Space</b> Describe the movement of the Earth, and other planets, relative to the sun in the solar system. Describe the movement of the Moon relative to the Earth. Describe the Sun, Earth and Moon as approximately spherical bodies. Use the idea of the Earth's rotation to explain day and night and the apparent movement of the sun across the sky.</p> <p><b>Tig Tag – The solar system, sun, earth and moon, The moon, Beyond our solar system.</b></p> <p><b>Forces</b> Explain that unsupported objects fall towards the earth because of the gravity acting between the Earth and the falling object. Identify the effects of air resistance, water resistance and friction that act between moving surfaces. Recognise that some mechanisms, including levers, pulleys and gears, allow a smaller force to have a greater effect.</p> <p><b>Tig Tag - Friction, reducing friction, gravity, action and reaction, gears and pulleys.</b></p>

Year	Autumn	Spring	Summer
6	<p><b>Animals, including humans</b></p> <p>Identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood.</p> <p>Recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function.</p> <p>Describe the ways in which nutrients and water are transported within animals, including humans.</p> <p><b>Tig Tag - Circulatory System, Respiratory system, Brain and body.</b></p> <p><b>Electricity</b></p> <p>Associate the brightness of a lamp or the volume of a buzzer with the number and voltage of cells used in the circuit.</p> <p>Compare and give reasons for variations in how components function, including the brightness of bulbs, the loudness of buzzers and the on/off position of switches.</p> <p>Use recognised symbols when representing a simple circuit in a diagram.</p> <p><b>Tig Tag – Circuits, Series and parallel circuits,, energy transformation</b></p>	<p><b>Evolution and inheritance</b></p> <p>Recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years ago.</p> <p>Recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents.</p> <p>Identify how animals and plants are adapted to suit their environment in different ways and that adaptation may lead to evolution.</p> <p><b>Tig Tag – Adaptation, Plants and their environments.</b></p>	<p><b>Light</b></p> <p>Recognise that light appears to travel in straight lines.</p> <p>Use the idea that light travels in straight lines to explain that objects are seen because they emit or reflect light into the eye.</p> <p>Explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes.</p> <p>Use the idea that light travels in straight lines to explain why shadows have the same shape as the objects that cast them.</p> <p><b>Tig Tag – The sun as a light source, White light, Reflection, Shadows</b></p> <p><b>Living things and their habitats</b></p> <p>Describe how living things are classified into broad groups according to common observable characteristics and base on similarities and differences, including micro-organisms, plants and animals.</p> <p>Give reasons for classifying plants and animals based on specific characteristics.</p> <p><b>Tig Tag – Classification of living things, Classification Keys.</b></p>
